duanekelling@gmail.com • 612.801.7084 • www.linkedin.com/in/duanekelling

Career at a Glance

1995 - 2003	2003 - 2006	2006 - 2007	2007 - 2008	2008 - 2015
ERICKSON CONSULTING • Chief Technology Officer	RADCLIFFE SYSTEMS • Director, Applications of Development – Engineered Labor Systems	ROBOCOM SYSTEMS • Director, Applications of Development – Engineered Labor Systems	STEN INDUSTRIES • IT Director	DA KELLING, INC • Consultant

Objective Seeking a strategic software development role in a progressive organization where I can shape and lead teams to deliver on new applications and systems for continued growth and improvement. Working in partnership with business stakeholders and internal functions to remove road blocks and establish a collaborative, continuous-improvement culture leading to profitability and advanced business performance.

Executive Profile A C-suite business and IT leader with extensive consulting experience in application development, support and implementation. A proven innovator who has developed, supported and implemented a variety of applications including real-time distribution dashboards, data warehouses, product lifecycle management and transportation applications offering information representing both historical and current analytics.

Signature Leadership Strengths

- Responsibility** Creating a clear commitment to build outstanding teams and applications.
- Context** Recognize the patterns of the past to map the future of organizations.
- Achiever** Bring a practical view and the drive to leverage the team to exceed customer expectations.
- Relator** Instinctive leader who can influence and build high-performing teams.
- Learner** Thrive on solving intriguing problems.

Create Value by

- Facilitating revolutionary development, and implementation of a broad range of applications and technology solutions using variety of methodologies.
- Improving customer expectations and exceling at seeing practical solutions through the eyes of the customer.
- Leveraging business knowledge and experience to build outstanding teams and projects providing timely and relevant business information.

Seek Company Challenges Such as

- Application development leadership
- Creating a collaborative environment with your business
- Identifying strategy for application portfolios, programs, and projects
- Enhancing development workplace productivity
- Product management and leadership
